# INDEX.

VOL. CXXVIII.

## Illustrations.

### Names.

A

A.C. SYSTEM of Arc Welding, 213
Alexander, H.M.S., Icebreaker for Archangel, 632, 633
Alldays, Mark H., Agricultural Tractor, 339
Allen West Lifting Magnet Switchgear, 355
Allen's Salvage Pump and Oil Engine, 332
America, Concrete Goods Wagons in, 107
America, Inclined Chutes for Distribution of Concrete, 245, 256, 284, 300, 306
American Caterpillar Excavating and Back-filling Machine, 412, 418
American Locomotive Company's Mallet Engine for Virginian Railway, 618
American Locomotives for the Far East, 216; (Correction), 383
American Locomotives, Steam Tenders for, 558, 559
American Machines for Dressing Railway Sleepers, 392
American Railway Derrick Car, 190
American Three-quarter Cubic Yard Steam Shovel, 366
Andersons' Semi-Diesel Marine Engines, The First Made in New Zealand, 81
Angus Sanderson Car Engine, 406, 407
Archdale, James, and Co., Thread-milling Machine, 274
Armstrong-Siddeley 29.5 H.P. Motor Car, 482, 483
Armstrong, Sir W. G., Whitworth and Co.:
H.M. Light Cruiser Delhi, 429,438
H.M. Seaplane Carrier Hermes, 274
Icebreakers for Archangel, 632, 633, 636
Locomotive Works at Scotswood, 536, 540 (*Two-page Supplement, November 28th*, 1919)
Oil Tank Steamer San Fernando, 605
Armstrong, Sir W. G., Whitworth and Co., Limited, and Cowans, Sheldon and Co., Limited, 250-Ton Self-propelling Crane Lighter, 225 (*Four-page Supplement, September 5th*, 1919)
Aster Engineering Company, Electric Lighting Set, 332
Aster Motor Car Engine at Olympia, 530
Austin Tractor, 356
Australian-built Fleet Auxiliary Biloela, 154, 155
Australian and New Zealand Locomotives, Recent, 180
Avery Automatic Grain Scales at Hull Grain Silo, 365
Avery Brinell Testing Machine, 406
Avonmore Engineering Company's Rotary Pump, 382

B

BAIRSTOW, Leonard, on the Progress of Aviation in the War Period, 193
Baldwin Locomotives for the Far East, 216; (Correction), 383
Barr and Stroud's Exhibits at Glasgow, 529—*see also* Fournier d'Albe
Beardmore 30 H.P. Motor Chassis, 531
Beardmore-Farquhar Light Machine Gun, 494, 495
Belfast, New Shipyard at, Harland and Wolff, 563
Belluzzo Marine Turbine, 20,000 H.P., 603
Bignell-Jones, Self-sinking Concrete Pile, 498
Biloela, Australian-built Fleet Auxiliary, 154, 155
Bone, Professor A., and Others, on Fuel Economy and Consumptions in the Manufacture of Iron and Steel, 299, 316
Brackenbury Screw Gauge, 508
Bray, Markham and Reiss, Limited, "Navy" Type Electric Motor Starters, 32
British Arc Welding Company Exhibit at Glasgow, 529
British Railway Workshops in War Time, 104, 178, 200, 208, 228, 232, 326, 334, 374, 375, 402, 484, 490, 581, 590; (Letter), 230 (*Two-page Supplement, October 24th*, 1919)
British Science and Key Industries Exhibition, 529
British Scientific Products Exhibition, 38, 65
British Stationary Diesel Engines of To-day, 349
British Thomson-Houston Company, Limited, Coolidge Tube, 80
British Thomson-Houston Company, Electrical Equipment for Cogging Mill, 444, 586
British Thread-milling Machines, 249, 274, 302, 324
Broadbent, T., and Sons, Limited, Crane Works at Huddersfield, 27, 29, 36 (*Two-page Supplement, July 11th*, 1919)
Brown-Firth Laboratories, Sheffield, 351, 353
Brown, John, and Co., Limited, H.M. Battleship Hood, 465, 468

C

C.P.R. PASSENGER Locomotives, 641
Carnegie, Andrew (Portrait), 156
Champlain Dry Dock at Quebec, 82, 86
Clayton and Shuttleworth Caterpillar Tractor, 339
Cleveland Chain Track Tractor, 356, 379, 384
Cochrane and Co., "Wedge" Optical Pyrometer, 229
Cole, Marchent and Morley 2500 I.H.P. Rolling Mill Engines, 136, 140, 141
Colville, D., and Sons' Glengarnock Works, 75 (*Four-page Supplement, July 25th*, 1919)
Conradi, C. G., on The Present Position of Mechanical Road Traction, 546
Cooper, Major A. Q., Friction Drive Relay Control for Aircraft, 226, 227
Cosmos Engineering Company's Motor Car, 513, 572
Costruzioni Meccaniche Riva Water Turbines, 456 (*Two-page Supplement, November 7th*, 1919)
Cowans, Sheldon and Co., Limited, Crane Lighter No. 4, 225 (*Four-page Supplement, September 5th*, 1919)
Cretemast, Concrete Tug, John verMehr, 544, 545
Crewe Shops, London and North-Western Railway War Work, 200, 208
Cricklewood Works of the Nieuport Aircraft Company, 151, 158
Crossley Brothers, Limited, Cold-starting Heavy Oil Engine, 252
Crossley Motors, Limited, 25-30 H.P., 460

D

DAVEY, Norman, Notes on a Tour in Italy and France, 456, 506, 603 (*Two-page Supplement, November 7th*, 1919)
Davis and Soames Clutch and Automatic Current-limiting Regulator, 470
Davy Brothers and British Thomson-Houston Company Electrical Rolling Mills at Templeborough, 444, 586 (*Two-page Supplement, December 12th*, 1919)
Delhi, H.M. Light Cruiser, 429, 438
de Normanville, A., Centrifugal Rain and Spray Guard, 315
de Normanville, Captain E., on Current Tendencies in Automobile Design, 406
Derby Shops of the Midland Railway, War Work, 326, 334, 402, 484, 490 (*Two-page Supplement, October 24th*, 1919)
"Dey" Electric Automobile, 619
D.L. Motor Manufacturing Co.'s Three-wheeled Tractor, 340
Doncaster Shops of the Great Northern Railway, War Work, 374, 375
Doxford, William, and Sons, Oil Engine, 64; (Letter), 131
Drummond Brothers, Screw Gauge Making at Guildford, 375

E

EMERSON Tractor, 379
Enfield-Allday Light Motor Car, 40, 41

F

FEDERATED Malay States Pacific Locomotive, 216; (Correction), 383
F.I.A.T. Agricultural Tractor, 339, 340
Fielding and Platt, Limited, Rotary Pump, 8
Finney Hand Pump, 191; (Letter), 314
Fordson Tractor, 356
Foster, Wm., and Co., Limited, Steam Tractor, 9
Foster's Compound Steam Wagon, 584
Fournier d'Albe, Barr and Stroud, "Matia" Optophone, 39, 65, 529
Franklin System of Lowering Boats from Ships, 403, 404

G

GATUN Power Station, Panama Canal, 562, 566
G.O. Tractor, 379, 384
German Liners' Machinery Repaired by Plastic Arc Welding, 56, 60
Glengarnock Works, D. Colville and Sons, 75 (*Four-page Supplement, July 25th*, 1919)
Gourepare Jute Mill near Calcutta, 505, 516 (*Two-page Supplement, November 21st*, 1919)
Gowdall to Braithwell Railway, 171, 182
Gray Tractor, 379, 380
Great Central Railway War Work at Gorton and Dukinfield, 581, 590
Great Northern Railway War Work at Doncaster, 374, 375
Great Southern and Western Railway of Ireland, Travelling Post-offices, 610, 611
Greater Winnipeg New Water Supply, 399
Guildford, Screw Gauge Making at, Drummond Brothers, 375

H

HAIGHS, Limited, Broaching Machine, 108
Hainault Optical Works, 434
Hall, B. J., and Co., Arc Lamp for Studio Photography, 534
Harbinger System of Lowering Boats from Ships, 403, 404
Harland and Wolff's New Shipyard at Belfast, 563
Harvey, Leonard C., on the Use of Pulverised Coal, 15, 26, 50; (Letter), 314
Hawkins, H.M. Light Cruiser, 296
Hawthorn-Gray Manhole Ring and Door, 594
Hell Gate Bridge, 125
Herbert, Alfred, Screw Type Broaching Machine, 108, 112
Herbert, Alfred, on Standardisation of Spindle Noses for Milling Machines, 358; (Letters), 410, 436, 488, 511
Herbert, E. G., Rapid Vertical Hack Saw, 162
Hermes, H.M. Seaplane Carrier, Sir W. G. Armstrong, Whitworth and Co., 274
Hick, Hargreaves Cylinder Cover, 349
Hick, Hargreaves and Co., Two Big Condensers, 190
Holcroft, H., on the Metamorphosis of the Locomotive, 78, 108, 126, 153; (Letters), 164, 176, 206, 230, 254
Holroyd, John, and Co., Milling and Screwing Machine, 249, 251
Holroyd, John, and Co., Square Thread Milling Machines, 275, 302
Hood, H.M. Battleship, John Brown and Co., Limited, 465, 468
Horwich and Newton Heath War Work, Lancashire and Yorkshire Railway, 104, 178
Huddersfield Crane Works, Thomas Broadbent and Sons, Limited, 27, 29, 36 (*Two-page Supplement, July 11th*, 1919)
Hull and Barnsley and Great Central Railways, 171, 182
Hull, 40,000-Ton Grain Silo at the King George Dock, 360, 364 (*Two-page Supplement, October 10th*, 1919)
Hulse and Co., Motor-driven Portable Shaping Machine, 118

I

ILLINOIS Central Railway Derrick Car, 190
India, Jute and its Manufacture, 505, 516 (*Two-page Supplement, November 21st*, 1919)
Inglis, Dr. John (Portrait), 63
Inglis, Professor C. E., on Portable Military Bridges, 283, 310
Italian Destroyer Audace, Yarrow and Co., Limited, 3
Italy and France, Notes on a Tour in, Norman Davey, 456 506, 603 (*Two-page Supplement, November 7th*, 1919)

J

JAPANESE Torpedo-boat Destroyer Urakase, Yarrow and Co., Limited, 3 (*Two-page Supplement, July 4th*, 1919)
Johnson, H. C., Tower Chute for Constructing Concrete Buildings, 614, 621

K

KING George Dock, Hull, 40,000-Ton Grain Silo, 360, 364 (*Two-page Supplement, October 10th*, 1919)
Kjellberg, Oscar, on Electric Welding and its Application to Shipbuilding, 442, 472; (Letters), 511, 535, 561, 620

L

LACY-HULBERT Three-stage Air Compressor, 405
Lancashire and Yorkshire Railway War Work, 104, 178
Lanchester Motor Car at Olympia, 513
Leparmentier System of Hull Construction, 91; (Letter), 110
Liebert's Thread Milling Process, 249, 275
Lobnitz Bucket Dredger for Platinum, 90
London and North-Western Railway, War Work Carried Out in the Crewe Shops, 200, 208; in the Wolverton Works, 228, 232

M

MAINE, Standard Steamship, Harland and Wolff, 563, 564
Martin Cultivator Company's Caterpillar Tractor, 356
Martin Cultivator Company's Four-wheeled Tractor, 356
Maskell Tractor and Plough, 379, 380
Mass Motor Car Works, 627
Mavitta—*see* Thompson-Mavitta
Meares, J. W., on Development and Storage of Water for Electrical Purposes, 186
Merryweather and Sons' Electrical Submersible Pump, 595
Michell Journal Bearing and Thrust Block, 202
Midland Railway Shops, Derby, War Work, 326, 334, 402, 484, 490 (*Two-page Supplement, October 24th*, 1919)
Mirrlees Air Blast Controlling Device, 349
Mirrlees-Watson Arrangement for Cleaning Condensers, 142
Mogul 30 H.P. Tractor, 378, 384
Morley, H. W., Notes on Drop Valves for Steam Engines, 25; (Letter), 84
Moseley Tractor, N. W. Simpson, 379
Motor Rail and Tramcar Company, Petrol Shunting Engine, 16
Moulton George, Limited, Thread Milling Machine, 249, 250
Murray River, Regulating Storage Reservoir on, 49

N

NAPIER Motor Car Engine Gear-box, Back Axle and Anti-rolling Device, &c., 407, 408, 409, 512, 514
"Navy" Type Electric Motor Starters, Bray, Markham and Reiss, Limited, 32
Neptune Marine Diesel Engine, Swan, Hunter and Wigham Richardson, Limited, 520, 521
New Mexico, United States Electric Battleship, 204, 234
Niagara, Hydro-electric Developments at, 427, 454, 464
Nicola, Romeo, and Co., Petrol-driven Air Compressor and Benzine Motor, 506, 507
Nieuport "Night Hawk" Single-seater Scout, 132, 151, 158

360215

O

OLYMPIA, Motor Car Show, 460, 479, 530

P

PANAMA Canal, Hydro-electric Power Plant at, 562, 566
Parry Steam Blower for Cleaning Boiler Tubes, 381
Pick Motor Company's Tractor Plough, 378, 379,
Pickles, J., and Son, Horizontal Log Band Saw, 498
Popplewell, W. C., on the Influence of the Modulus Ratio on Reinforced Concrete Stresses, 628
Pruden Carburiser for Use with Pulverised Coal, 26

Q

QUEBEC, Champlain Dry Dock, 82, 86

R

RANSOMES, Sims and Jefferies, Tractor Plough, 8
Richards Thread Milling Machine, 324
Riva—*see* Costruzioni
Robey and Co., Limited, Compound Steam Wagon, 9
Robey Semi-Diesel Engine, 583
Rotoplunge Pump Company's Pump, 382
Royal Agricultural Show, 8
Ruston-Hornsby Motor Car at Olympia, 481, 482

S

SAN FERNANDO, Oil Tank Steamer, Sir W. G. Armstrong, Whitworth and Co., 605
Sankey, Captain Riall, on Direction Finding by Wireless Telegraphy, 388
Saunderson Tractor, 378, 379
Scotswood Locomotive Works, Sir W. G. Armstrong, Whitworth and Co., Limited, 536, 540 (*Two-page Supplement, November 28th*, 1919)
Shanks, Thomas, and Co., Horizontal Boring and Milling Machine, 162
Shantung Railway Consolidation Locomotive, 216
Shaxby, Captain J. H., on a Cheap and Simple Micro-balance, 619
Simon, Henry, Elevating, Conveying, and Electrical Equipment at Hull Grain Silo, 360, 364 (*Two-page Supplement, October 10th*, 1919)
Smith and Coventry, Horizontal Broaching Machine, 108, 109, 112
Smith and Coventry, Keyseating and Mortising Machine, 416, 417
Smithfield Club Show, 583
South Yorkshire, New Railway in, 171, 182
Sterling Metals, Limited, Aluminium Crank Case for 750 H.P. Engine, 531
Straker-Squire Motor Car at Olympia, 514
Submersible Motors, Limited, Pump and Motor, 354
Suez Canal, Temporary Swing Bridge over, at El Kantara, 174
Sviatogor, Icebreaker for Archangel, 632, 633, 636
Swan, Hunter and Wigham Richardson, Neptune Marine Diesel Engine, 520, 521

T

TASKER Road Locomotive, 583
Taylor, Captain W. T., on the Economical Design of Water Conduits, 293
Taylor, Charles, Limited, Thread Milling Machine, 249
Templeborough, Electrical Rolling Mills at, 586
Thompson-Mavitta Drafting Machine, 238
Thornycroft Emergency Lighting Set, 331
Thwaites Brothers' Factory for Manufacture of Cast Steel Road Wheels, 5, 12
Titan, 25 H.P. Tractor, 378, 384
Tomlinson, F., Pressure Casting Apparatus, 263
Trefoil, Diesel Motor Ship, Vickers, 198
Tylor Engine for Angus Sanderson Car, 406, 407

U

U.S. Electric Battleship New Mexico, 204, 234
Ure-Reid, Cards from a Diesel Engine, 497

V

VAUGHAN Crane Company's Electric Lifting Block, 261
VerMehr, John, Reinforced Concrete Tug Cretemast, 544, 545
Vickers Diesel Engine, Some Notes on, 198
"Victory" Pipe Joint, 381
Virginian Railway, Mallet Compound Locomotive, 618

W

WALRAND Converter, 46
Ward-Leonard-Ilgner Set for Cogging Mill at Templeborough, British Thomson-Houston Company, 444, 586
Warner Automatic Boiler Feed Regulator, 380, 381; (Correction) 406
Watford Electric and Manufacturing Company's Automatic Starter, 65
Watt, James, Centenary 277, 308
"Wedge" Optical Pyrometer, Cochrane and Co., Limited, 229
Weeks-Dungey Four-wheeled Tractor, 378, 379
Weir Locomotive Feed Heater and Pump, 405
West, H. J., and Co., the "Whalley" Concrete and Tar-macadam Mixer, 559, 560
West, Lieut. R. Rolleston, on Air Brakes for Aeroplanes, 570
Westland Aircraft Works, Limousine Aeroplane, 271, 280; (Correction) 348 (*Two-page Supplement, September 19th*, 1919)
"Whalley" Concrete and Tar-macadam Mixer, 559, 560
Wigham, J., and Sons, Steam Waste Prevention Device, 380, 381
Willans and Robinson, Emergency Governor, Safety Governor, and Water Circulation Failure Gears, 349
Williamson, James, Calculating Diagrams for Reinforced Concrete, 149 (*Two-page Supplement, August 15th*, 1919)
Wilson Welder and Metals Company's System of Plastic Arc Welding, 56, 60
Wimperis, Major H. E., Bomb Sights, 211
Winnipeg, Greater, New Water Supply, 399
Witherington, H.M. Torpedo-boat Destroyer, J. S. White and Co., Limited, 417
Wolseley Motor Car, 460, 480, 481
Wolverton Shops, London and North-Western Railway War Work, 228, 232

X

X-RAY Examination by Coolidge Tube, 80

Y

YARROW Destroyers, 3 (*Two-page Supplement, July 4th*, 1919)

---

# Subjects.

A

AERIAL Bomb Sights, Major H. E. Wimperis, 211
Aeroplane, Limousine Four-seater, Westland Aircraft Works, 271, 280; (Correction), 348 (*Two-page Supplement, September 19th*, 1919)
Agricultural Show, The Royal, 8
Agricultural Tractor Trials, 308, 338, 356, 378, 384
Air Brakes for Aeroplanes, Lieut. R. Rolleston West, 570
Air Compressor, Petrol-driven, Nicola, Romeo and Co., 506, 507
Air Compressor, Three-stage, Lacy-Hulbert and Co., 405
Aircraft, Friction Drive Relay Control for, Major A. G. Cooper, 226, 227
Aluminium Crank Case for 750 H.P. Engine, Sterling Metals, Limited, 531
Ambulance Trains and Commander-in-Chief's Train at Wolverton Works, 228, 232
Arc Welding, A.C. System, 213
Automatic Starter—*see* Electrical Matters
Automobile Design, Current Tendencies in, Captain E. de Normanville, 406
Automobile, The "Dey" Electric, 619
Aviation in the War Period, Progress of, Leonard Bairstow, 93, 115

B

BAND-SAW, Horizontal Log, J. Pickles and Son, 498
Bearing and Thrust Block, Michell, 202
Benzine Motor—*see* Engines
Blast-furnaces at Glengarnock, D. Colville and Sons, 75 (*Four-page Supplement, July 25th*, 1919)
Boats—*see* Ships
Boiler Feed Regulator, R. Warner and Co., 380, 381; (Correction), 406
Boiler Manhole Compensating Ring and Door, "Hawthorn-Gray," 594
Boiler Tube Cleaner, The Parry, 381
Boilers Fired with Powdered Coal, Leonard C. Harvey, 52
Bomb Sights, Major H. E. Wimperis, 211
Boring Machines—*see* Machine Tools
Bridge, Hell Gate, 125
Bridge, Temporary Swing, over Suez Canal, 174
Bridges on the Gowdall to Braithwell Railway, 171, 182
Bridges, Portable Military, Professor C. E. Inglis, 283, 310
Broaching Machines—*see* Machine Tools
Burners for Coal Dust, The Bergman, Fuller, Sopulco, Quigley, &c., Leonard C. Harvey, 26, 50

C

CALCULATING Diagrams—*see* Concrete
Cards, Engine—*see* Engines
Cartridge Case Renovation at Derby Works, Midland Railway, 402 (*Two-page Supplement, October 24th*, 1919)
Cast Steel Road Wheels Manufacture, Thwaite, Brothers, Limited, 5, 12
Casting Apparatus, Pressure, F. Tomlinson's Process, 263
Caterpillar Tractor, Clayton and Shuttleworth, 339
Centrifugal Rain and Spray Guard, A. de Normanville, 315
Chutes—*see* Concrete
Coal, Pulverised, Use of, Leonard C. Harvey, 15, 26, 50; (Letter), 314
Coal Wagon, 50-Ton Concrete, Illinois Central Railway, 107
Cogging Mill—*see* Rolling Mills at Templeborough
Compressors—*see* Air Compressors
Concrete Buildings, Tower Chute for Constructing, H. C. Johnson, 614, 621
Concrete, Distribution of, by Inclined Chutes, 245, 256, 284, 300, 306
Concrete Goods Wagons in America, 107
Concrete Pile, Self-sinking, Bignell-Jones, 498
Concrete, Reinforced, Calculating Diagrams for, James Williamson, 149 (*Two-page Supplement, August 15th*, 1919)
Concrete Ships—*see* Ships
Concrete and Tar-macadam Mixer, The "Whalley," 559, 560
Condenser Cleaning by Chemicals, Mirrlees-Watson Company, 142
Condensers, Big Surface and Jet, Hick, Hargreaves and Co., Limited, 190
Controlling Arrangement, Speed, for Pelton Wheel Turbines, 457
Controlling Gear, Distribution for Low Fall Turbines, 456
Converter, The Walrand, 46
Coolidge Tube, British Thomson-Houston Company, Limited, 80
Crane Lighter No. 4, 250-Ton Self-propelling, Sir W. G. Armstrong, Whitworth and Co., Limited, and Cowans, Sheldon and Co., Limited, 225 (*Four-page Supplement, September 5th*, 1919)
Crane Works at Huddersfield, J. Broadbent and Sons, Limited, 27, 29, 36 (*Two-page Supplement, July 11th*, 1919)
Cranes from Crewe for War Work, 200, 208
Crank Case, Aluminium, for 750 H.P. Engine, Sterling Metals, Limited, 531
Current Regulator—*see* Electrical Matters
Current Tendencies in Automobile Design, Captain E. de Normanville, 406

D

DAM, Mitta Mitta, on the Murray River, 49
Derrick Car for Illinois Central Railway, 190
Diesel Engines—*see* Engines
Direction Finding by Wireless Telegraphy, Captain Riall Sankey, 388
Distribution of Concrete—*see* Concrete
Dock, Dry, Champlain, Quebec, 82, 86
Drafting Machine, The Thompson-Mavitta, 238
Drawing Instruments, Nickel Alloy, 435
Dredger, Bucket, for Platinum Soil, Lobnitz and Co., Limited, 90
Drop Hammer for War Work, 201
Drop Valves for Steam Engines, Notes on, H. W. Morley, 25
Dynamometer, Recording Tractor, 338

E

ECONOMICAL Design of Water Conduits, Captain W. T. Taylor, 293

**ELECTRICAL MATTERS:**

A.C. Electric Welding Machines, 213
Arc Lamp for Studio Photography, B. J. Hall and Co., Limited, 534
Automatic Current Limiting Regulator for Alternating Circuits, Davis and Soames, 470
Automatic Starter, Watford Electric and Manufacturing Company, 65
Coolidge Tube in Radiographic Examination, 80
Development and Storage of Water for Electrical Purposes, J. W. Meares, 186
"Dey" Electric Automobile, 619
Electric Welding and its Application to Shipbuilding, Oscar Kjellberg, 442, 472; (Letters), 511, 535, 561, 620
Electrically Propelled Ships—*see* Ships
Improvement of Power Factor in Electrical Supply Systems, 486
Lifting Block, Electric, Vaughan Crane Company, Limited, 261
Lighting Set, Aster Engineering Company, 332
Lighting Set, Thornycroft Emergency, 331
Motor Starters, New Development in, Bray, Markham and Reiss, Limited, 32
Niagara, New Hydo-electric Developments, 427, 454, 464
Panama Canal, Gatun Power Station and Hydro-electric Plant at, 562, 566
Plastic Arc Welding System, Wilson Welder and Metals Company, 56, 60
Switchgear, Lifting Magnet, Allen West and Co., Limited, 355
Templeborough, Electrical Rolling Mills at, Davy Brothers and British Thomson-Houston Company, 586
Ward-Leonard-Ilgner Electrical Plant, 586
Welding at British Science and Key Industries Exhibition, British Arc Welding Company, 529

ELEVATING and Conveying Equipment at Hull Grain Silo, Henry Simon, Limited, 360, 364 (*Two-page Supplement, October 10th*, 1919)

**ENGINES AND MOTORS:**

Angus Sanderson Car Engine, J. Tylor and Co., Limited, 406, 407
Aster Motor Car Engine at Olympia, 530
Benzine Motor, Two-cylinder, Nicola, Romeo and Co., 506
British Stationary Diesel Engines, 349
Cards from a Diesel Engine, G. Ure-Reid, 497
Cold-starting Heavy Oil Engine, Crossley Brothers, Limited, 252
Compound Surface Condensing Engine for Bucket Dredger, 90
Cosmos Air-cooled Motor Car Engine, 513, 572
Diesel Engines for Submarines, Vickers, 198
Doxford Oil Engine, 64; (Letter), 131
Drop Valves for Steam Engines, Notes on, H. W. Morley, 25; (Letter), 84
Motor Car Engines at Olympia, 460, 479, 512, 513
Napier Six-cylinder Engine, 407, 409, 512, 514

**ENGINES AND MOTORS** (*continued*.)

Neptune Marine Diesel Engine, Swan, Hunter and Wigham Richardson, Limited, 520, 521
Oil Engine Driving 12in. Salvage Pump, W. H. Allen, Son and Co., 332
Petrol Shunting Engine, Motor Rail and Tramcar Company, 16
Robey Semi-Diesel Engine, 583
Rolling Mill Engine, Three-crank, Glengarnock Works, Galloways, Limited, 77
Rolling Mill Engines, 2500 I.H.P., Cole, Marchent and Morley, 136, 140, 141
Semi-Diesel Marine Engines, The First Made in New Zealand, Andersons, Limited, 81
Straker-Squire Motor Car Engine, 514
Watt's Ocker Hill Engine, 309

EXCAVATING and Back-filling Machine, American, 412, 418
Excavating Dredgers and Shovels at Niagara, 454, 464
Exhibition, British Science and Key Industries, 529
Exhibition, British Scientific Products, 38, 65
Exhibition, Roads and Transport, 532, 559

Paravane, The, R. F. McKay, 298
Portable Military Bridges, Professor C. E. Inglis, 283, 310
Submarine Mining in Warfare, Commander A. L. Gwynne, 298
Mathematical and Physical Science Section, Professor A. Gray, 259
Thermionic Tubes, Dr. Eccles, 357
Wireless Telegraphy: Various Kinds of Tubes, Professor Fortescue, 357
Work of the Association, 281

**Association of Engineers, Manchester:**

High-speed Turbine Gears, Professor G. Stoney, 534
Presidential Address by Mr. Harold F. Massey, 396
Prices and Conditions for Supply of Electric Power, 473

**Institute, Iron and Steel:**

Autumn Meeting, 154, 299, 316, 327
Bessemer Medal Presentation, 299
Defects in Tensile Test Pieces, A. M. Portevin, 327
Fluxing Action of Iron Oxides on Acid Furnace Structures, J. H. Whiteley and A. F. Hallimond, 327
Fuel Economy Committee Papers:
Fuel Control in Metallurgical Furnaces, Sir R. Hadfield and Mr. R. J. Sargent, 299
Fuel Economy and Consumptions in the Manufacture of Iron and Steel, Professor W. A. Bone, Sir R. Hadfield, and Mr. A. Hutchinson, 299, 316, 341
Fuel Economy in Cupola Practice, H. James Yates, 299
Present Status of Fuel Economy in German Iron and Steel Industry of Occupied Territory on the Rhine, Cosmo Johns and Laurence Ennis, 299
Nickel Chrome Forgings, J. H. Andrew and Others, 328
Nickel Chrome and Other Steels, Brittleness in, F. Rogers, 328
Nickel Chrome Steel, Temper Brittleness of, R. H. Greaves, 328
Programme, 154
Synthetic Cast Iron, C. A. Keller, 327
Woody Structure of Transverse Test Pieces, &c., J. J. Cohade, 327

**Institute of Marine Engineers:**

Presidential Address, Lord Weir, 582

**Institute of Metals:**

Aero-engine Presentation by Mr. W. H. Allen, 330
Autumn Meeting, 139, 313, 330, 351
Bearing Metal, Observations at the National Physical Laboratory, Miss Hilda Fry and Dr. Rosenhain, 330
Constitution and Metallurgy of Britannia Metal, F. C. Thompson and Captain F. Orme, 313
Early History of Electro-Silver Plating, R. E. Leader, 331
Graphite and Oxide Inclusions in Nickel Silver, F. C. Thompson, 313
Micro-mechanism of the Agency of Aluminium, Dr. Jefferies, 331
Moulding Sands for Non-ferrous Foundry Work, Professor P. G. H. Boswell, 330
New Industries at Sheffield, 351
Programme, 139
Properties of Standard Silver with Notes on its Manufacture, E. A. Smith and H. Turner, 313
Season Cracking, Dr. W. H. Hatfield and Captain G. L. Thirkell, 313
Solidification of Metals from the Liquid State, Dr. Cecil H. Desch, 330
Ternary Alloys of Tin-antimony Arsenic, Dr. J. E. Stead and Notes by J. Spencer, 313
Visits to Works, 330, 351

**Institution of Automobile Engineers:**

Possibilities of Further Economies in Road Transport, T. Clarkson, 445
Valve Steels for Internal Combustion Engines, Leslie Aitchison, 641

**Institution of Civil Engineers:**

Metropolitan Road and Rail Transit, Some Aspects of, H. H. Gordon, 537
Presidential Address, Sir J. Purser Griffith, 457

**Institution of Electrical Engineers:**

Committee's Report on Patent Law Amendment, 189
Conversazione and Dinner, 24
Development and Storage of Water for Electrical Purposes, J. W. Meares, 186

**ASSOCIATIONS, INSTITUTIONS & SOCIETIES** (*continued*):

LABORATORIES, Research, Brown-Firth Sheffield, 331, 351, 353

**LABOUR NEWS, STRIKES, AND WAGES QUESTIONS:**
Campbell Strike, 610, 616
Coal Strike, 87
Coal and Treasury Notes, 61
Demobilised Men and the Trades Unions, 47
Engineering Training for Ex-Service Men, 588
Industrial Conditions, Lord Weir, 582
Industrial Court, 593
Industrial League, 159, 160, 177
Industrial League and Council, 419
Industrial Peace, 159
Labour and Economic Conditions, 183
Moulders' Strike, 307, 331
Railwaymen's Wages, 328
Railway Strike, 335, 361, 465
Scientific Management: A Solution of the "Capital and Labour Problem, Captain J. M. Scott Maxwell, 632, 638
Shipbuilding Position, 87

LAMP, Arc, for Studio Photography, B. J. Hall and Co., Limited, 534
Lamps, "Pointolite," 564
Laryngaphone, Telephone Manufacturing Company, 529
Lathes—*see* Machine Tools
Launches and Trial Trips, 24, 46, 74, 98, 147, 196, 220, 242, 290, 393, 419, 471, 528, 548, 597, 625, 646

**LEADERS:**
Aircraft Production During the War, 62
Algal Growths and Water Filtration, 233
British Association, Work of the, 281
British Engineering Prospects in Australia, 335
By Air and Sea, 37
Campbell Strike, 616
Charges for London Water, 37
Chemical Standards for Iron and Steel Analysis, 491
Civil Aviation Prospects, 615
Coal Strike, 87
Coal and Treasury Notes, 61
Control of British Railways, 386
Development of the Motor Car, 517
Electrical Equipment of Large Cranes, 282
End and the Beginning, 13
Engineer's Vocabulary, 439; (Letters), 488 535
Fuel Economy in Iron and Steel Works, 307
Future of Road Transport, 385
Government's "Commercial" Aircraft Competition, 210
Great French Shipbuilding Scheme, 183
Industrial Peace, 159
Institutions, Our, 281
Invention and Industry, 137
Italian Shipbuilding Programme, 362
James Watt, 209
Labour and Economic Conditions, 183
Lathe Tools, 637
Legacy of the War, 491
Lord Beatty at the Admiralty, 413
Lord Fisher on the Fleet, 258
Management of Men and Machines, 638
Marine Diesel Engine, 492
Mother of Invention, 159
Moulders' Strike, 307
Nationalisation of German Industries, 137
Naval Shipbuilding Policy, 113
Oil Fuel for Ships, 568
Our Largest Man-of-War, 465
Our Post-War Naval Policy, 233
Port Congestion, 113
Power Alcohol, 13
Proposed New L.C.C. Tramways, 439
Railway Administration, 592
Railway Deficit, 138
Railway Electrification, 541
Railway Finance, 518
Railway Policy, A New, 465
Railway Strike, 335, 361
Reopening of French Trade, 14

**LEADERS** (*continued*):
Royal Arsenal, 61
Royal Dockyards, 517
Shipbuilding Position, 87
Shipbuilding Statistics, 413
Shortage of Railway Wagons, 591
Standardised Feeds and Speeds for Machine Tools, 567
Steel Industry Changes in Lorraine and Luxemburg, 541
The Future, 257
War-time Specifications and Peace-time Uses, 591

LEGACY of the War, 491
Leparmentier System—*see* Ships

**LETTERS FROM OUR OWN CORRESPONDENTS:**
England, North of, 21, 45, 71, 72, 97, 98, 121, 122, 144, 167, 193, 218, 240, 267, 289, 319, 344, 369, 370, 395, 423, 449, 475, 501, 525, 551, 577, 578, 599, 623, 625, 645
Lancashire, 19, 22, 43, 69, 95, 119, 122, 143, 166, 192, 217, 220, 239, 242, 265, 288, 318, 320, 345, 367, 394, 396, 421, 424, 448, 450, 474, 499, 523, 549, 575, 578, 597, 600, 622, 644
Midlands and Staffordshire, 19, 43, 46, 69, 72, 95, 98, 119, 143, 165, 191, 217, 239, 265, 287, 317, 320, 343, 367, 393, 421, 447, 473, 499, 502, 523, 526, 549, 575, 598, 621, 643
Scotland, 21, 45, 71, 97, 121, 145, 167, 193, 219, 241, 267, 289, 319, 345, 369, 395, 423, 449, 475, 501, 525, 552, 577, 599, 624, 646
Sheffield, 20, 22, 44, 46, 70, 72, 96, 98, 120, 122, 144, 146, 166, 168, 192, 194, 218, 220, 240, 266, 288, 290, 318, 320, 343, 346, 368, 394, 396, 422, 424, 448, 474, 500, 502, 524, 526, 550, 552, 576, 598, 623, 624, 644
Wales and Adjoining Counties, 21, 45, 46, 72, 97, 98, 121, 122, 145, 146, 168, 193, 194, 219, 241, 242, 267, 268, 290, 320, 345, 370, 396, 424, 449, 450, 476, 501, 502, 525, 526, 552, 578, 600, 624, 625, 645

**LETTERS TO THE EDITOR:**
Accurate Pitch of Long Screws, J. Kershaw, 561
Belt Driving, Geo. T. Pardoe, 6, 55, 110, 164, 176, 314; E. W. Sargeant, 31, 131; Phillip, 84; J. R. Hopper, 164, 176, 254
Boy in Industries, F. E. Johnson, 341
Boyd, William, J. R. Oldham, 84, 254, 341
British Chamber of Commerce in Germany, E. Jordan, 110
British Engineers in Competition for the World's Markets, A. P. Bale, 410; Greenly, Limited, 436
British and Foreign Machinery, H. Hamel Smith, 254
British Railway Workshops in War Time, X. Y. Z., 230
Change-speed Linkage Gear, Henry Davey, 436; E. Lonsley, 488; F. A. Forward, 511; J. Whitcher, 620
Chronology of Steam Locomotion, C. R. King, 7; C. F. Dendy Marshall, 7
Coal Mining and Refinement, N. H. Lake, 535
Coal and Tidal Power, Power User, 206
Cost of Electric Light, E. C. S., 176
Cure and Training of Ex-Soldiers, Captain J. M. Hollis, 392
Deepest Mine in the World, D. Lamont, 409
"Doxford" Oil Engine, Anglo-Mexican Petroleum Company, 131
Electric Welding and its Application to Shipbuilding, Quasi-Arc Company, 511, 561; British Arc Welding Company, 535, 620
Engineers' Vocabulary, E. C. Barton, 488; Robert True, 488; W. H. Booth, 535
Finney Hand Pump, Pump Draughtsman, 314
Floating Power of Ships, R. M. Steele, 110
Hours of Labour Question in True Focus, E. T. Good, 313
Industrial Property: Patents, Designs, Trade Marks, &c., H. Thompson, 131
Institution of Civil Engineers and the Engineering Profession, Virus, 110; G. M., 131; Ivor E. Mercer, 165; J. L. O. F., 165
Invention and Industry and Patent Law Reform, J. Keith, 164, 176
Is there Sufficient Wealth to Go Round? J. H. Ferguson, 206, 254, 391, 436; E. P. Ward, 230, 314; A. C. Garwood, 314, 410
Links, &c.—*see* Two Missing Links
Locomotive Building Trade with China, Hexagon, 436
Metamorphosis of the Locomotive, F. W. Brewer, 164, 176, 206, 230, 254; H. Holcroft, 206; W. H. Booth, 230
Murdock's Locomotive—*see* Two Missing Links
"Natural Law" of Steam Boiler Performance, Jas. Dunlop, 313
Notes on Drop Valves, &c., Ivor E. Mercer, 84
Oil Engine Nomenclature or So-called "Semi-Diesel" Cycle, H. Akroyd Stuart, 31
Old Locomotive Firms, A. M. Bushell, 488; W. H. Booth, 535; W. J. Barker, 620
Patent-office Library, 391
Patents and Designs Bill—*see* Peace Treaty, *also* Invention and Industry
Peace Treaty and Patents, G. C. Marks, 31; Chartered Patent Agent, 55
Power Alcohol on Air Routes, Horace Wyatt, 7
Principles of Aeroplane Engine, J. R. Gould, 535; S. C. Butler, 561
Production of Industrial Alcohol, H. I. Peddie, 55
Pulverised Fuel, W. Sisson, 314
Rainfall and Horse-power, H. R. Kempe, 7
*Re* "Ether," Bertram Blount, 31
Salaries of Engineers, M. W. Salmon, 7
Spiral Pump, Henry Davey, 392; E. W. Sargeant, 409
Standard Spindle Noses for Milling Machines, F. Archdale, 410; G. W. Brown, 410; Alfred Herbert, Limited, 436, 511; Associated British Machine Tool Makers, 488
Standardisation of Small Tools, G. W. Brown, 410
Technical Nomenclature—*see* Engineer's Vocabulary
The (Civil Engineers) Registration Bill, Geo. T. Pardoe, 596

**LETTERS TO THE EDITOR** (*continued*)
Thermal Efficiencies of Boilers, &c., T. R. Wollaston, 84
Tri-compound Engines; Triple-expansion Engines—*see* Boyd
Trisection of an Angle, L. B. W. Jolley, 7; E. W. Norton, 341; H. R. Kempe, 358, 391; C. V. Boys, 358; E. G. Barton, 358; Albert Flindle, 596
Two Missing Links in the History of the Locomotive, Jas. Dunlop, 341, 409, 561; E. A. Forward, 391; Rhys Jenkins, 535

White Star Line Jubilee, 261
William Froude National Experiment Tank, 618

British Navy:
Australian-built Fleet Auxiliary Bilocla, 154, 155
Capetown, H.M. Cruiser, 18
"D" Class, Light Cruisers of the, 429, 438
Delhi, H.M. Light Cruiser, 429, 438
Dragon, H.M.S., Showing Aeroplane Shelter, 429
Fleet at Southend, 88
Hawkins, H.M. Light Cruiser, 296
Hermes, H.M. Seaplane Carrier, 274
Hood, H.M. Largest Battleship, 465, 468
Mackay, H.M. Destroyer, Michell Journal Bearing Fitted to, 202
Renown, H.M. Battle-cruiser, An American Appreciation of, 643
Trefoil, Diesel Motor Ship, Vickers Engines, 198
Wild Swan, H.M. Torpedo-boat Destroyer, Swan, Hunter and Wigham Richardson, 532
Witherington, H.M. Torpedo-boat Destroyer, J. S. White and Co., Limited, 417
Wolverine, H.M. Destroyer, J. S. White and Co., Limited, 84

Naval Matters:
Diesel Engines in Monitors, 184
Lord Beatty at the Admiralty, 413
Naval Models and Exhibits at Olympia, 352
Naval Shipbuilding Policy, 113
Navy Estimates, 1919-1920, 592
"Navy" Type Motor Starter, Bray, Markham and Reiss, Limited 32
Oil and the Navy, Rear-Admiral Philip Dumas, 595
Our Post-War Naval Policy, 233
Paravane, The, R. F. McKay, 298
Royal Dockyards, 517
Submarine Mining in Warfare, Commander A. L. Gwynne, 298

**SHIPS & SHIPBUILDING** (*continued*):

**Naval Matters** (*continued*)

Turbine for Ships of War, Belluzzo, 603
Yarrow Destroyers, New, 3 (*Two-page Supplement, July 4th*, 1919)

**Foreign Navies:**

Electrical Equipment of the U.S.S. New Mexico, 204, 234
German Submarine Construction, The Facts About, 584
Italian Destroyer Audace, Yarrow and Co., Limited, 3 (*Two-page Supplement, July 4th*, 1919)
Japanese Destroyer Urakase, Yarrow and Co., Limited, 3 (*Two-page Supplement, July 4th*, 1919)

**Mercantile and Miscellaneous Vessels:**

Aquitania, Cunard Liner, Refitting and Equipment for Oil Fuel, 569
Cretemast, Reinforced Concrete Tug, John verMehr, 544, 545
Icebreakers for Archangel, Sviatogor and Alexander, Sir W. G. Armstrong, Whitworth and Co., Limited, 632, 633, 636
Marine, 6550-Ton Standard Ship, Harland and Wolff, Limited, 563, 564
Salving the River Clyde, 47
San Fernando, Oil Tank Steamer, Sir W. G. Armstrong, Whitworth and Co., 605
Selene, Motor Ship, Working Results from, 639

SHORTAGE of Railway Wagons, 591
Shovel, Steam, American, in England, 366
Show, Motor Car, at Olympia, 460, 479, 512, 513, 517, 530, 572
Show, Royal Agricultural, at Cardiff, 8
Show, Smithfield Club, 583
Silo, 40,000-Ton Grain, at the King George Dock, Hull, 360, 364 (*Two-page Supplement, October 10th*, 1919)
Sleepers, Railway—*see* Railways
